

Cameroon National Baptist Convention {CNBC},

Directorate of Evangelism and Missions.

18th March 2026

David Silver and Larry Silver,
Transformation Bible Ministries
USA

Dear David and Larry,

I write to you on behalf of the Cameroon National Baptist Convention {CNBC} to express our deepest gratitude for the remarkable Conference you facilitated at Zion Baptist Church Mvogbesi, Yaounde from the 16th - 18th March 2026.

The "Hermeneutics, Teaching Principles and Spiritual Identify Conference" was a transformative experience for all who attended, and we are honored to have had you share your expertise with us.

Your passion for biblical teaching and commitment to helping others study and apply the Bible was palpable. The insights and principles shared have already begun to inspire a renewed focus on scripture and spiritual growth among our pastors and leaders. Your dedication to TBM's mission -

"Helping others study and apply the Bible" - was evident in every session, and we are grateful for your faithfulness to this calling.

The CNBC team appreciates your engaging approach, practical examples, and willingness to engage with our questions and contexts. Your partnership has strengthened our resolve to deepen biblical literacy and spiritual formation within our churches. We are excited about the potential collaborations that may arise from this fruitful encounter.

We especially thank you for taking time to invest in us, and for the warmth and hospitality shown during your stay. Your love for the body of Christ in Cameroon is evident, and we feel valued and encouraged by your ministry.

As the Director of Evangelism and Missions for CNBC, I must tell you that your time with us cannot be wasted time at all, considering that our Convention is growing large and we are extending into new areas:

- Leboudi (Nkolbesson) in the Central Region of Cameroon.
- Bonaberi in the Littoral Region of Cameroon.

- Buea in the South West Region of Cameroon.

And many other places in the Western Region, significantly working towards coming up with a new District in the West and central regions (Yaounde District); all of this growth requires the sound word of God - Right biblical interpretation.

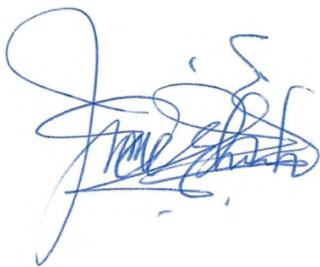

We have a seminary, Baptist Evangelical School of Theology (BEST) in Fundong, North West Region of Cameroon. The interest of our Executive President to have our seminary, BEST Fundong partner with interested and sound theological ministries around the world so much fits with the vision of your ministry. Again, the possibility of bringing a program hub of the seminary to the French zone of Cameroon to allow international lectures and lecturers because of the armed conflict in the North West Region of Cameroon gives hope to an appeal for your constant return in this direction.

In the area of Health Services, when the Executive President of CNBC, Rev. Dr. Teh Francis Yai came to office in April 2024, bringing healthcare nearer to the people was his top priority, thus constructing the Blessed Hope Health Centre in Fundong Up, aiming at penetrating more communities. With this vision, I appeal to Dr. David Silver who is a professional Medical Doctor to pray and advice us as we develop and strengthen the CNBC Health institutions.

With all of these put forth to you, Sirs, having recognized your sound theological and biblical perception and direction, I beg, I appeal, I request that you never stop coming back to Cameroon either for the Church, Seminary (BEST) or our Healthcare Units in CNBC.

May God continue to bless TBM and the work you do globally. We look forward to staying connected and exploring ways to support each other in advancing the Gospel.

With appreciation, I'm your brother,

Rev. Dr. Njung Kumbong Promise.
Director, Evangelism and Missions
Cameroon National Baptist Convention (CNBC)
